Nicholas Saunderson Maths Trail

Nicholas Saunderson Facts....

Nicholas Saunderson was born in Thurlstone in 1682.

He went blind as a young boy and learned to read and write by feeling the letters on the gravestones in this churchyard.

He worked hard and became a brilliant mathematician, and then a Professor at Cambridge University.

Nicholas died in 1739 at the age of 57.

Find and Add.....

In the churchyard of St John's in Penistone are some millstones with dates on; find the dates below and then add up the total:

Penistone becomes an independent parish

Market Charter granted

Penistone "Thursday" Market Charter granted

Penistone 29 arch viaduct built +

Total:

How many windows are there in St Johns Church?

How many arches are there inside the church?

How many faces are there on the panels of the St Johns Gardens archway?

Find some numbers on one of the gravestones and draw them, How many years old is the grave?
